Fed Signals Rate Cut Possible by Year-End

The Federal Reserve hinted at a potential interest rate cut before the end of the year, citing cooling inflation and slowing economic growth. Markets reacted positively, with stocks rallying on the news

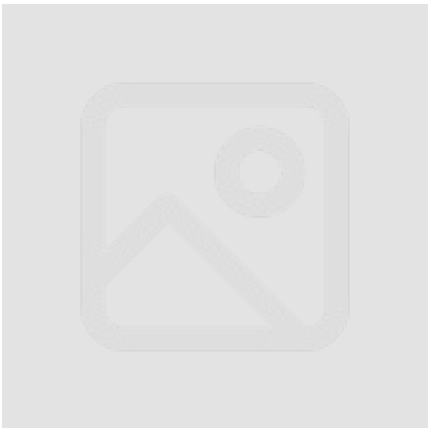

Bitcoin Surges Past \$75K Amid ETF Boom

Bitcoin hit a new all-time high, surpassing \$75,000, driven by increased institutional adoption and strong demand for recently approved Bitcoin ETFs. Analysts predict further gains if momentum continues.

Wall Street Ends Week on a High Note

Major U.S. stock indices closed higher this week, with the S&P 500 and Nasdaq reaching record levels. Tech stocks led the charge as investors remained optimistic about earnings season.

Housing Market Rebounds as Mortgage Rates Dip

Homebuyers are returning to the market as mortgage rates decline for the third consecutive month. Housing inventory remains tight, but demand is picking up, especially in suburban areas.

AI Boom Fuels Tech Sector Growth

Artificial intelligence continues to drive growth in the tech sector, with major companies reporting strong revenue from AI-powered services. Investors remain bullish on AI stocks despite regulatory concerns.

Job Market Cools as Hiring Slows in Key Sectors

The latest jobs report shows a slowdown in hiring, particularly in retail and manufacturing. While unemployment remains low, economists warn that a prolonged slowdown could impact consumer spending.
